

WEATHERTUFF®

HOME SHIELD™

**100% Acrylic Exterior Coating
Enhances Life of Your Home**

5 Years protection against algae & fungus growth

WEATHERTUFF®

HOME SHIELD™

*100% Acrylic Exterior Coating – Enhances Life of Your Home
(Australian Technology)*

CHITRA, manufacturer of INSULTEC & SEALERCOAT – the most premium products for solar heat insulation & water proofing now presents “**HOME SHIELD**” – a 100% Acrylic exterior coating for home. It protects your home from harsh summer, monsoon & cold winter weather. Sheen finish of HOME SHIELD protects from growth of fungus, algae & accumulation of dust. It gives long life to pigments without fading. Flexible HOME SHIELD bridges hairline cracks & honey comb cracks. High percentage of Titanium Dioxide present in HOME SHIELD gives a different glow & look to your home in the sunshine of the day or when illuminated in the night. It is free from lead, Mercury & chromium compound.

Directions of Use :

- **Surface preparation** : Make surface dust, oil & grease free. Remove all particles which may have loose bond with the surface using wire brush. Clean the surface with water thoroughly.
- Algae & fungus can be removed with surface treatment chemicals like acticide solutions.
- Fill all minor cracks with modified mortar like DIAMOND SHIELD, which are friendly to all cementitious surface. Avoid using putty for all exterior application.

Priming : Dilute 1 part of HOME SHIELD with 1 part of clean, fresh & salt free water. Then apply on a prepared surface as a primer coat.

Finishing : Apply 2 coats of HOME SHIELD by diluting with fresh & clean water in 2 : 1 ratio (Home Shield : Water). Keep it for minimum 4 hrs interval between 2 coats.

Coverage : 55 – 60 sq. ft. per one liter with 2 coats on smooth, non porous surface.

Dry film properties :

- Dry film has resistance to fume attack of chemicals and salty weather on concrete surfaces.
- It has resistance to humidity in atmosphere.

Manufactured By :
